

THE GOING-TO-THE-SUN ROAD PROJECT TRAVEL INFORMATION

Travel and Construction Update AUGUST 14, 2009

SUMMER-FALL

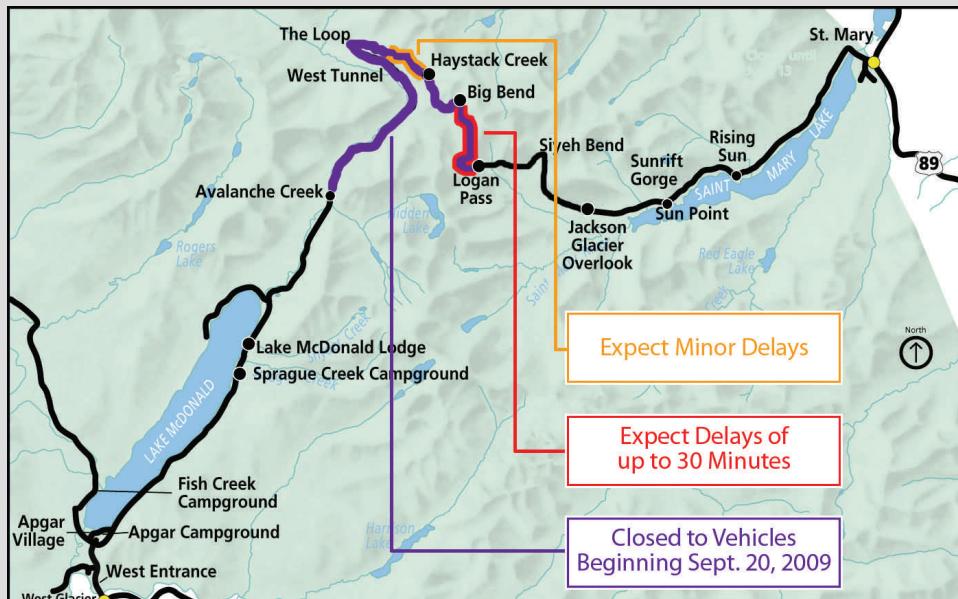

The road is entirely open to traffic. Construction is on-going above the Loop for approximately 2 miles. Expect rough pavement in this segment. Work has also begun in a 2.8 mile segment between Big Bend and the west side of Logan Pass. This is an American Recovery and Reinvestment Act project. Visitors can expect short delays of 30 minutes or less in this area. Please be alert for construction traffic and follow direction from traffic control devices and personnel.

Nighttime delays are in effect until 10PM and 6AM Monday through Thursday night. These nighttime delays will begin Monday August 17 between the Loop and the west side of Logan Pass. Call ahead for the most current road status information (1-406-888-7800) or visit <http://home.nps.gov/applications/glac/roadstatus/roadstatus.cfm>

Midnight Sunday, September 20, 2009, a portion of the road between Avalanche and the west side of Logan Pass will be closed to vehicular traffic in order to accelerate construction. Logan Pass will still be accessible from St. Mary until weather, once again, forces a retreat from the alpine segment of the Going-to-the-Sun Road.

SHUTTLE SERVICE

The Going-to-the-Sun Road Shuttle service is scheduled to terminate service on Sept 7, 2009 (Labor Day).
